HARD SKILLS

- HTML
- CSS
- Python
- JAVASCRIPT
- PHP (Basic)
- Database
- SQL Server
- Vue JS
- Node JS
- Laravel
- OOP (TYPESCRIPT)
- SASS
- BOOTSTRAP
- TAILWINDCSS

SOFT SKILLS

- Problem solving
- Critical Thinking
- Support & Fix
- Teamwork & collaboration
- Project management
- Adaptability
- Time Management
- Responsibility & Discipline

PROFILE

Passionate about full-stack development, I specialize in designing and building scalable, user-focused web applications across both front-end and back-end environments. I am committed to delivering efficient, high-quality digital solutions by applying strong problem-solving skills and modern development practices.

WORK EXPERIENCE

- **Project Restaurant Management System** FEB - MAR 2026
Role: QA & Developer
 - Developed "Restaurant Management System" to manage information in restaurant system to chef and customer easy to order food.
 - This project build by using VueJS and Laravel.
